

**2021 City of Dalworthington Gardens  
Playground Shade Structure Pledge Form**

The City of Dalworthington Gardens' Park Board has initiated a capital campaign to install a shade structure over the toddler playground equipment. The funding needed to complete the project is approximately \$15,000. Your donation is important to the success of the capital campaign. All donations qualify as a tax-deductible contribution.

This addition will significantly improve the playground as the toddler playground equipment is unprotected from the sun for most of the day.

Your pledge will be included in our capital campaign and will be primarily used to install the shade structure. Any additional funds raised will be used for other playground accessories.

We are counting on your support. Please complete the bottom of this letter as documentation of your pledge to the Playground Shade Structure Capital Campaign. Thank you in advance for your donation.
